15th March 2017

Dear Parents/Guardians,

As part of National Science Week, we will be holding our own BIG SCIENCE day on Tuesday 28th March.

The theme of the National Science Week is 'Changes'. We will be looking at chemical changes, changes of state as well as environmental change.

The children will take part in Science throughout the day and have the chance to be fully immersed in engaging and awe-inspiring activities. We feel it is a really important opportunity to allow the children to understand more about the world around them and to have a chance to roll their sleeves up and investigate!

The children will work in their usual classes in the morning, but will have the opportunity to work within their mixed age 'Working With Others' groups during the afternoon.

In order to provide the children with a range of practical activities and investigations, we ask if you would kindly make a voluntary contribution of £1 per child towards resources for the day. This can be paid via Parent Pay by Tuesday 28th. We look forward to a fun-filled and motivating day,

Kind regards

Nina Boden
Science Leader
